Polled Shorthorn Dispersion

With Guest Consignments From

Cloverdale Farm, R. L. Flamme, Gladbrook, Ia.
Cedarvale Farm, Walter F. Fennern, Mt. Auburn, Ia.

AT CEDAR VALLEY LIVESTOCK SALE BARN

VINTON, IOWA

FRIDAY, FEBRUARY 13th, 1959

PRESENTING:

- 1 Tried Sire
- 8 Herd Bull Prospects
- 25 Females Bred To Tulleevin Fascinator
- 3 Females Bred To Collynie Masterpiece 5th
- 13 Open Heifers - Many of the bred cows sell
with calves at foot.

THE ALAUNA ACRES herd is discussed on another page.

The Flamme and Fennern herds have been closely allied with the Alauna herd for many years.

Walter Fennern moved to Alauna in 1944 and was the operator there until 1950 when he moved to the farm he had purchased. When he moved, the Alauna females were divided down the middle so his foundation females were of much the same breeding as the present Alauna females. Alauna Lord Collynie was retained in partnership until sold well past 13 years of age. Since 1944 Walter has developed many grand and reserve grands in the Iowa State Polled Sale and the 1946 Congress Grand Champion, ALAUNA Collynie. He has been using good, well bred herd bulls since 1950 and upon our invitation he is presenting a very creditable string of females.

Raymond Flamme is one of the oldest and most improving breeder of Polled Shorthorns in Iowa and has added much to the development of our breed. Individuals from his herd of deep, lowset, thick breedy cows with scale have won many championships at the Iowa State Sales and State Fair. He has been a stickler for good sires.

Raymond Flamme and Earl Girton saw eye to eye at the 1953 International and purchased the 3rd prize senior bull calf, Hilldale Viking 2nd, for joint use in their herds. He was used this way for four years and we are happy to have the Flamme consignment to the ALAUNA dispersion.

Note: The cover page picture is that of the great ALAUNA COLLYNIE in his mature form.

PLEASE BRING THIS CATALOG TO THE SALE WITH YOU.

Catalog Lithographed By MWM Color Press, Aurora, Mo.

General Information

TIME: Friday, February 13, 1959 - Sale at 12:30 P.M. sharp.

LOCATION: The sale will be held in the comfortably heated Cedar Valley Livestock Sale Barn located on U. S. 218 at the northwest corner of Vinton, Iowa. Vinton is also on Highway 101 and is located 35 miles northwest of Cedar Rapids and 35 miles southeast of Waterloo. Both have airports, bus and rail connections. Bus travel through Vinton. If the sale manager is previously notified, visitors will be met at Hotel Allison in Cedar Rapids and conveyed to Vinton on sale day.

This sale follows the Omaha Polled Shorthorn sale on February 12th and we hope that many breeders and visitors attending that sale will stop off with us.

LUNCH: May be had at the sale barn or at the various cafes in Vinton.

Terms and Conditions

TERMS: Cash to the highest bidder - the auctioneer to settle any disputes as to bids. Settlement must be made before any animal is removed from the sale barn. Animals will be at purchaser's risk as soon as sold.

Announcements made sale day will take precedence over any statements in the catalog as some changes are bound to occur after this catalog goes to the printers.

GUARANTEE: This being a dispersion sale, all the Alauna cattle will sell without further guarantee. The Flamme and Fennern cattle carry the standard breeding guarantee.

HEALTH: All animals will have passed a T.B. and Bangs test within 30 days of this sale except the many young animals which have been Bangs vaccinated for which vaccination papers will be furnished. Practically every female in the Alauna herd has been calfhood vaccinated.

A certificate of registry and transfer of same will be supplied for every animal sold as a single lot and signed applications for calves at foot and unborn calves will be furnished.

The above terms constitute a contract between the respective sellers and the buyer of each lot.

We will not be responsible for any accidents that may occur but will make every effort to provide for the safety and comfort of our guests.

MAIL BIDS: Those wishing to buy and who cannot attend may send their bids to the auctioneer, the representative of the American Shorthorn Breeders Association or the fieldmen.

AUCTIONEER: J. E. Halsey, Des Moines, Iowa.

FIELDMAN: A representative of the Association office, Bill Stunkel of the Shorthorn World, T. W. Sherlock of Wallaces Farmer and Jim Browitt, with the American Shorthorn Breeders Association.

SALE MANAGER: Earl S. Girton, P. O. Box 321, Marshalltown, Iowa, Office Phone 5537, Residence Phone 3693. He will be at Hotel Vinton the night before the sale.

EARL S. GIRTON REPRESENTS AMERICAN LIVESTOCK INS. CO. OF GENEVA, ILLINOIS.

The Alauna Acres Story

ALAUNA (Indian word: A Place of Happy Fortune) was purchased in 1936 by Earl S. and Lora T. Girton. Most of the 235 acres are tillable. Improvements have been added until it is a sound workable unit. Since the owners have had outside connections, Alauna has been operated by tenants, largely on a livestock share basis.

In 1940, the small, fine breeding herd of Shorthorns and of excellent breeding was bought of Gilbert Schuerman and brought to Alauna.

We had been thinking of and watching Polled Shorthorns since 1939. In the fall of 1942, Francis Kueny and Earl Girton visited the Albert Hultine & Sons herd at Saronville, Nebraska. We needed a bull of serviceable age. We looked over several bulls and could have had the choice of Collynie Fascinator or Collynie Compact for \$1500. (They later sold for \$1500. and \$4000. respectively). With only a few cows, we could not stand that kind of money.

Just before dinner we saw a 7 months red bull calf with a fine polled head, lowset, deep, typy and with a lot of quality. We liked him but too young for us. After dinner, Albert Hultine took out his pedigree book and we studied the pedigrees of several bulls. The one that suited us for deep polled breeding and excellent bulls and cows back of him pointed right to that 7 months calf. He had 29 polled ancestors out of 30 in the first 4 generations. The horned was the foundation cow, imported Bracelet 5th. International Grand Champion bulls showed up five times. We bought this calf, which we named Alauna Lord Collynie, for \$500. after the Hultines gave us the use of Daybreak's Creed for a few months.

A.L.C. (Alauna Lord Collynie) arrived at Alauna in October, 1942, and left in November, 1953, when 11 3/4 years of age. He went to a fine Shorthorn herd hundreds of miles away but never sired another calf, although Lot 28 was conceived shortly before he left. Used largely on horned cows, A.L.C. never had a horned calf dropped for us.

A.L.C. had an exceptionally good head with a smooth rounding poll, burly neck, smooth shoulders shading into a smooth fore rib, exceptional depth of flesh over the back, hooks and rump, depth of quarter, fullness of twist and rear flanks, size of bone and especially mellow in flesh and hide. He transmitted these characteristics largely to his offspring.

At the 1946 P.S.H. Congress, three short yearlings by A.L.C. won: 1st-Alauna Monarch; 1st-ALAUNA COLLYNIE; Augusta Alauna 5th stood 2nd to Grand Champion Female; 1st pair of bulls; 2nd on group of 3 head; Grand Champion bull on ALAUNA COLLYNIE, and best 3 head by one sire.

Alauna Collynie sold for \$2500. to J. W. Bennett, Oakville, Wash., where he sired these International winners: Grand Champion on Hilldale

Alauna Acres

Augusta May, Grand Champion on Hilldale Collynie 60th, Reserve Grand Champion on Hilldale Collynie 8th and 1st "Get of Sire". His sons have gone to Great Britain, Canada, Australia and New Zealand. He was very likely America's leading P.S.H. sire for a few years.

At the 1946 and 1951 Iowa State Fairs, the offspring of A.L.C. won the Get of Sire awards plus a Grand Championship on Alauna Rosewood. From 1945 on, the get of A.L.C. won 7 Grand or Reserve Grands in the Iowa State P.S.H. Shows and Sales.

Over the years, we have sold the get of A.L.C. into 13 states from Washington to Maine and from Alabama to North Dakota, plus Ontario and we are happy that our cattle have helped to advance the quality and number of P.S.H. over such a world-wide area. Please note that over 75% of the cattle in the Alauna offering carry A.L.C. bloodlines.

Our batting average in winning Grand Championships for the number of times that we have shown at the National P.S.H. Congress Shows is .750 as we have shown at the 1946, 1950, 1954 and 1956 Congress events and won 3 Grands, namely:

1946 - Alauna Collynie by Alauna Lord Collynie.

1950 - Shir-Ma-Rita Broadhooks by Alauna Lord Collynie.

1956 - Alauna Proud Viking by Hilldale Viking 2nd.

This is likely the highest average of any herd showing four or more times at the Congress. Two years ago we sold 21 head to former Secretary of Defense, Charles E. Wilson, for his Louisiana plantation.

Footnotes on the more recent herd bulls at Alauna accompany their pedigrees.

The present operator at Alauna, Willard Hall, had experience as assistant herdsman at Michigan State College and with top herds of all three beef breeds in Michigan. He fitted and showed our Grand Champion bull and female and top selling animals in the 1958 March show and sale at Hawkeye Downs.

The scarcity and high cost of dependable help makes it difficult to operate with quite an acreage of crops and with lots of livestock. Age is creeping up some on the senior partner and this coupled with the tragic death of his business partner, Mr. S. A. Dickerson, in an auto accident on Thanksgiving Day, makes us realize that it is time to be relieved of some duties.

The Alauna cattle are a good practical working herd and will be presented in good ordinary working flesh. No attempt is being made to put them in high condition. The cows and most of the 1958 calves are running together in lots with open sheds. The calves now have access to a creep feeder. Outside of a few head broken to halter the cattle will be driven into the sale ring and sold that way. The entire herd will be sold without reserve except as noted with Lot 1. Tulleeven Fascinator has been running with the herd for a few hours each day since December 20th. We desire that all the cattle do well for their new owners.

ALAUNA LORD COLLYNIE

Note the grand head and burliness of this fine old sire. See reference to him in The Alauna Acres Story.

Footnote For Reference Sire B

We were in quest for a junior herd bull at the 1953 International when Girton met Raymond Flamme who was also on the same mission, although he had shortly before bought his Juggler bull-the sire of his five heifers selling in this sale. Finally Flamme suggested that we might go 50-50 on a herd bull and to look over the 3rd prize senior calf sired by Viking 4th, just made the Grand Champion Shorthorn bull of the show and standing at the head of the Bennett show string. We studied this calf in the stall and walked him in the aisle. His pedigree showed his dam to be sired by Glen Knolls Monarch 2d, a \$1500. 1st prize winner at the International and also a full brother to the model Polled Shorthorn bull, Glen Knolls Monarch, and one of Lynnwoods leading herd bulls. Many polled breeders use Shorthorn bulls but we preferred a polled bull with some horned breeding. We bought the calf for \$800. He developed very well and he has a wonderful head somewhat similar to that of Alauna Lord Collynie. J. W. Bennett is using a full brother in his famous Hilldale herd.

Viking proved a fine sire in both herds and we felt that he mated especially well with females carrying A.L.C. bloodlines. Alauna showed their first bull calf, ALAUNA PROUD VIKING, out of Lot 26 in this sale, to the Grand Championship at the 1956 Polled Shorthorn Congress when just 12 months of age. He sold to Gallatin Farms of Triplett, Missouri for \$1000. That same fall, another son of Viking was shown by Flamme to the Grand Championship of the Iowa State Polled Show and Sale. In the last March Hawkeye Downs P.S.H. sale a son and a daughter were the Grand Champions and top sellers. Numerous other sons are heading good herds. Flamme is selling two sons in this sale and keeping all his daughters. Alauna is selling 6 sons and 17 daughters in this sale. We believe that the public will like them.

Flamme sold his interest in Viking to head the good herd of R. W. Packer & Son, Marshalltown, Iowa, while Girton sold his interest to Walter A. Heiden & Son, Buckeye, Arizona, for use on their granddaughters of Hilldale Collynie 60th, an International Grand Champion.

Footnote For Lot 1

Early in 1957, we started in search of a junior herd bull. We had considerable correspondence and did some traveling. We wanted a stock bull that would carry on improvement at Alauna when mated to the daughters of A.L.C. and Viking and also bred so that he would add prestige to the herd. He must have that strong head and neck that had been in the other herd sires and look like a 100% dehorner.

After the Carona sale in October, 1957, we had Willard Hall fly down to Tulleevin Farms, Franklin, Ohio, to look over the sons of L F Fascination, the 1954 International Grand Champion. He looked over several bulls but was most impressed with a September, 1956, calf which had not been priced to us. Charlie South and his partner, Mr. D. J. O'Connor, Jr., intended to keep this calf around for herd bull insurance in case L F Fascination quit breeding.

Willard reported his findings and we studied his pedigree intently and decided "we could not miss" with the great bulls back of him for four generations. We made Tulleevin an offer of \$1000. for the calf outright except that they could retain a breeding privilege to him during his life time through artificial insemination and at their expense. Thus Tulleevin Fascinator came to Alauna in November, 1957. He will be sold in this sale with Tulleevin's right, as above stated, following the bull.

The American Shorthorn Breeders Association rules permit three individuals or firms to use the service of herd sire through artificial insemination as long as the bull lives. Maybe some couples of P S H breeders might team up to use the services of this promising young sire.

When KaDel Urice, a neighboring Shorthorn breeder, first saw Tulleevin Fascinator, he remarked, "He sure looks like a stock bull, he'll do". He is shortlegged, heavy boned, with the legs out under the corners, possesses a great head and neck, good width and depth of body, meaty and real good lower quarters and twist. In many respects he resembles the Royal Leaders that have done a wonderful job for P.S.H. His first calf, a bull, with Lot 30 looks like he could follow in the footsteps of any of the best that have gone forward from Alauna. So far his calves are of good color and polled. We believe that he will prove a 100% dehorner. Look his calves over carefully. We will not say more about Fascinator but suggest that you study the pictorial review of the great bulls back of him and decide about him or some cows with calves at foot or bred to him. He will be in excellent working condition as he is spending a few hours a day out with the cow herd since December 20th.

WE HAVE A \$1,000. INSURANCE POLICY ON TULLEEVIN FASCINATOR PAID UP TO ABOUT MAY 26, 1959, AND IT GOES WITH HIM.

ALAUNA REWARD VIKING

An amateur snapshot. He should head a real good herd. Note the breediness, lowsetness and extra thickness with an exceptional full quarter.

ALAUNA KINROSS PREFECT x - In 1957 we sent our three best daughters of Hilldale Viking 2d to be mated to our good friend and neighbor, KaDel Urice's \$2500. Scotsdale Kinrossby the 1951 Perth Grand Champion, Calrossie Prefect by Calrossie Welcome. Note that the dam of Scotsdale Kinross is also by Calrossie Welcome. As a result of these matings we are offering three polled calves--this red bull and two beautiful heifers next in order in the catalog so that you can study the pedigrees in a group. The dam is a beautiful daughter of Hilldale Viking 2d. She has a very breedy polled head, is lowset, deep and thick, and of medium scale. She comes from one of the two best families in the Alauna herd--a Duchess of Gloster. She sells as Lot 12. As some breeders say: This calf has come up the hard way, running on grass with his mother without grain until 6 mos of age. Looks like he will have ample scale and is coming along fine now. When he comes to himself it looks as if he will make some owner happy. He has the breeding and individuality back of him so that he should prove a good breeding bull.

Polled Shorthorn Dispersion

CALROSSIE PREFECT

A producer of Champions--Supreme Champion--Perth, 1952--By Calrossie Welcome. Grandsire of Lots 7, 8, and 9 in this sale. We took amateur snapshots of these calves but they did not do them justice so we are not using them.

ALAUNA ROSEWOOD PREFECT x - Is a planned mating of our best 1955 daughter of Hilldale Viking 2d and of KaDel Urice's Scotsdale Kinross, a \$2500, son of the Perth Grand Champion, Calrossie Prefect. You will note that Kinross is a double grandson of Calrossie Welcome, probably the world's greatest Shorthorn sire in his time. Kirton Baronet shows up twice in the next generation as the sire of both granddams of Kinross. When KaDel purchased Kinross he was advised "that he should be an excellent bull to go into someone's polled herd as he was bred that way." Needless to say that we are proud of this lowset, deep, nicely lined heifer with a beautifully feminine polled head and the type that all breeders should like. We had picked her to be fitted for the 1959 Congress and we feel that she could have given other contenders a run for the money. Who knows but what she may have been our fourth grand champion in five trips to the Congress. She had a beautiful polled mother but we had to market her account of udder trouble. Here is an opportunity for someone to obtain a sweet heifer of different breeding to "salt away" into the breeding herd as a foundation female. Calrossie Welcome, Viking 4th and Alauna Lord Collynie all in one package. Look up the 1958 International winnings of Calrossie Prefect in the December 15th issue of the Shorthorn world.

ALAUNA ROSE ANN PREFECT - Is the third polled calf that we obtained from the mating of Scotsdale Kinross with the three top heifers of our 1955 crop. We are listing these three calves by Kinross side by side so that you can see his picture in connection with your study of the calves. This heifer is of similar type and quality as her 3/4 sister, Lot 8, although she is not quite as perfect in form but you will like her. Note that she has two crosses of the world's leading Shorthorn sire, Calrossie Welcome, one cross of the 1953 International Grand Champion Shorthorn Bull, Viking 4th, on a foundation cow sired by Bert Hanson's Dale's Crown. Another opportunity to lay in a very desirable foundation female with a proven line of breeding but just a little different than in most Polled Shorthorn herds. Her mother sells as Lot 35.

ALAUNA GLOSTER 7TH - Is a dark roan heifer of good scale and one of the four daughters of Gloster Alauna 7th and one of the three full sisters that we are selling in this sale. Beautiful feminine head and correct type. She is one of the three or four heifers that we had originally selected to fit and sell in the 1959 Congress sale. Since we have been successful in coming home with three Grand Championships in four trips to the Congress Shows and Sales it behooved us to select a string that would do justice to our Alauna Acres herd. We have confidence in this heifer. She is too young to breed so we will hold her open so that some buyer may breed her to his own herd bull. Another foundation prospect. See Lots 11 & 12, full sisters, for extended pedigrees.

ALAUNA GLOSTER 6TH x - Is a nice red daughter of Gloster Alauna 7th, she is a full sister to another Gloster Alauna that Walter Fennern showed to the Grand Championship at the Iowa State Polled sale a few years ago and sold to Kent Seely for \$700. Gloster Alauna 7th was also a full sister to Alauna Gift, the reserve Grand Champion at the 1950 Iowa Polled sale where he sold to Huso Brothers of Minnesota, and where he made a wonderful record as a sire. This blood breeds on. This is the top of our two year old heifers and she is just good enough that she could fit into any herd. She has a nice red heifer calf Alauna Gloster 8th, dropped November 11th, sired by Tulleevin Fascinator and rebred to him. For some young chap wishing to start a herd of Polls we recommend this pair. She is milking very nicely.

ALAUNA GLOSTER 4TH x - Is a dark roan 3 year old daughter of our former herd bull, Hilldale Viking 2d and out of the grand old breeding cow, Gloster Alauna 7th, a daughter of Alauna Lord Collynie. We are selling four daughters of this fine old cow, three of them by Hilldale Viking 2d. You will like all three. She has a beautiful feminine and polled head, is lowset, of medium scale and would be welcome in most any herd. Due to calve to the service of Tulleeven Fascinator April 12th and what a calf this should be. She is the dam of bull, Lot 7 Alauna Kinross Prefect. Quite a nice milker for first calf.

ALAUNA GLOSTER - Is a very feminine headed granddaughter of Alauna Lord Collynie and out of an own daughter of the same. Her sire, Alauna Rampart, was a 3/4 brother to the great Alauna Collynie which we showed to the Grand Championship of the 1946 National Polled Shorthorn Congress and sold to J. W. Bennett of Oakville, Washington for \$2500. Rampart was sold to head the herd of Glen Estil, of Enid, Oklahoma. This cow is from one of the two best producing families at Alauna. She sells with a white, horned, bull calf dropped November 17, by Hilldale Viking 2d, and sells rebred to Telleevin Fascinator. Look over this cow's 2 yr. old daughter, Lot 13.

SHIR-MA-RITA ROSEWOOD A x - Is an own daughter of Alauna Lord Collynie and from a dam by the same sire. As a summer yearling she stood well up in her class at the Iowa State Fair. From our fine line of Rosewoods. A little pasther prime but still a fine breeding cow. She has dropped four calves by Hilldale Viking 2d. The oldest was a Junior Heifer Calf, even roan in color, that stood 2d in class at the 1956 Congress. The next is Lot 16 selling with a roan heifer calf at foot. The third heifer is Lot 17, a fine red yearling heifer selling bred to Tulleevin Fascinator. She has a real good lowset, type even roan bull calf Alauna Royal Viking, dropped June 20th, by Hilldale Viking 2d. He has run on grass without grain until after corn picking. A dandy head on him and good lines and should develop into a very desirable bull. Rebred to Tulleevin Fascinator and this should prove a good mating. A chance for someone to get a good breeding cow without too much money.

ROSEWOOD M 10TH x - Is a nice red cow that was 2d prize senior yearling at the Iowa State Fair. She is not a large cow and on account of being a heavy milker she is not in high flesh. One of her bull calves was reserve Champion at a Hawkeye Downs sale. We sent a very good bull calf from her in the shipment to Mr. C. E. Wilson, for his Louisiana plantation. She is the granddam of Lot 8 Alauna Prefect Rosewood, selling in this sale. Her daughter was our best heifer in 1955. Lot 2 a son, sells in this sale. Look him over carefully. She is from our dependable Rosewood family. She will calve about May 1st to service of Tulleevin Fascinator and this should prove a highly satisfactory mating. Note that she is an own daughter of Alauna Lord Collynie. Also note that Lot 21, a daughter sells in this sale.

ALAUNA ROSEWOOD M - Is one of the two daughters of Alauna Fanfare that we retained in the herd. Note that she is a line bred Alauna Lord Collynie and a fine lot of other breeding in her pedigree. She is a daughter of Lot 20 in this sale. This cow's first calf was top selling heifer in the September, 1957, Hawkeye Downs sale. Her second calf, Lot 3, a bull, sells in this sale. Her third calf, a red bull, Alauna Proud Fascinator, dropped October 2, and sired by Tulleevin Fascinator, is a real good bull prospect. He is a calf with a fine head, straight lines and legs. He could be your next herd bull. Sells rebred to Tulleevin Fascinator.

ALAUNA BROADHOOKS - Is a red dehorned female with a lot of Alauna Lord Collynie breeding. She is from the same dam as our 1950 Congress Grand Champion female, Shir-Ma-Rita Broadhooks, by Alauna Lord Collynie. Her dam was the first heifer by Alauna Lord Collynie and we lost her just last summer at nearly 15 years of age. Lot 6, a bull, is from this cow. We lost her last calf. Will sell bred to Tulleeven Fascinator. Her 1956 heifer by Hilldale Viking 2d was Grand Champion and top selling polled heifer at the March 1958 Hawkeye Downs sale. She sold for \$380, to Edwin S. Doty, Rochester, Minnesota.

ALAUNA DOROTHY 6TH - Is an own daughter of Alauna Lord Collynie and out of the very fine cow Nakomis Belle, by Imp. Cruggleton Nakomis. She is a lighter roan with white feet. Of excellent type and a fine breeder and milker. Her first calf, a heifer, went in the shipment of 21 head from Alauna to former Secretary of Defense, C. E. Wilson, to his Louisiana plantation. Her second calf, Alauna Dandy Viking, was Grand Champion at the March Hawkeye Downs sale of Shorthorn Horns and Polled Shorthorns and equalled the top price of \$560. This cow had a fine solid red bull calf last Spring but it dropped dead at ten days of age. She is a good milker and has raised the fine heifer calf, Alauna Rosewood Prefect, Lot 8 in this sale. She will calve about April 3d to the service of Tulleeven Fascinator and this should prove a fine mating.

ALAUNA DOROTHY 4TH, Lot 27

As she appeared on pasture in 1955 and when nursing her first calf,
Alauna Proud Viking, that became the Congress Grand Champion Bull
in 1956.

---	---

ALAUNA DOROTHY 4TH x - Is a red granddaughter of Alauna Lord Collynie. Please note that this cow is the dam of our 1956 Congress Grand Champion bull, Alauna Proud Viking, that sold for \$1000, to Gallatin Farms of Triplet, Missouri. Her granddam, Nakomis Belle, was one of the best cows at Alauna. Note the good sires in the pedigree. Dorothy 4th is a cow of medium scale and a good milker. She has two or three small white marks. She sells with a red heifer, Alauna Dorothy 10th, at foot calved June 13th, by Hilldale Viking 2d and thus a full sister to the Congress Grand Champion. Lot 29 is also a full sister. Rebred to Tulleevin Fascinator and this could be her best calf.

IRENE 4TH A - Is a deep red cow that we purchased at the David Thompson dispersion in 1957. A cow of medium scale and a good milker. Of the right type and a good breeder. Lot 31 is the calf that came with her. Irena A 4th has a very outstanding bull calf, Alauna Fascinator, dropped September 14, and the first bull calf sired by Tulleevin Fascinator. He is low set, deep and thick with a fine head and neck and a wonderful hind quarter. Many breeders should be very happy to own this calf. If he is a guide as to the way Tulleevin Fascinator will breed then lucky will be the new owner of Fascinator. Rebred to Tulleevin Fascinator.

ALAUNA FAIRY RING 3D x - Is one of the two daughters of Alauna Fanfare that we kept in the herd. Both are proving fine breeders. Here we lay it on the line the looks of this young cow will dissappoint you, but she has the breeding back of her so that when mated to good herd bulls she turns out top calves in our herd. Her 1957, dark roan heifer by Hilldale Viking 2d was one selected for the 1959 Congress sale along with the good Gloster heifer. We lost her from bloat about November 1st. This cow probably has the best looking heifer calf by Tulleevin Fascinator, maybe having a little advantage on account of age. Her dam went with the shipment to Mr. C. E. Wilson. Will be rebred to Tulleevin Fascinator.

ALAUNA ROSE ANN - Is a real good heifer--the second best of our 1955 crop and is one that will fit into almost any breeder's herd. We believe that she is of correct type and individuality. Look up her dam as Lot 34: This is one of the three daughters of Hilldale Viking 2d that we selected to mate to KaDel Urice's Scotdale Kinross to bring another line of breeding into our herd. This mating produced a very good roan heifer selling as Lot 9 in this sale. Please look her up. This cow is a nice milker. She is bred to Tulleeven Fascinator and is due to calve a few days after the sale.

ALAUNA RAMPART VIKING
(Left)

ALAUNA REWARD VIKING
(Right)

ALAUNA RAMPART VIKING

See pedigree as Lot 4. A good big rugged bull that will do a lot of good for someone.

ALAUNA ENVOY VIKING

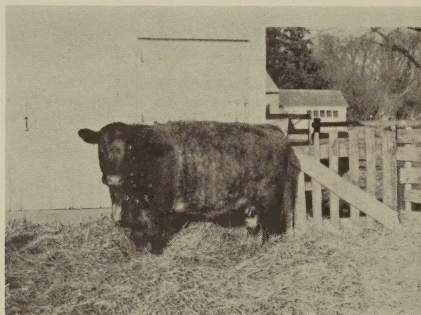

See his pedigree as Lot 3. We did not know how our snapshots would turn out so did not leave open space with his pedigree. He should appeal to a discriminating buyer.

Alauna Acres

ALAUNA GLOSTER 6TH

Usually when an amateur snapshot is taken with the animal nearly facing the kodak, the head is greatly distorted. That is the case here. Take our word that you will be very pleasantly surprised when you see her. Girton wanted this heifer fitted for the 1958 Congress but Hall talked him out of it.

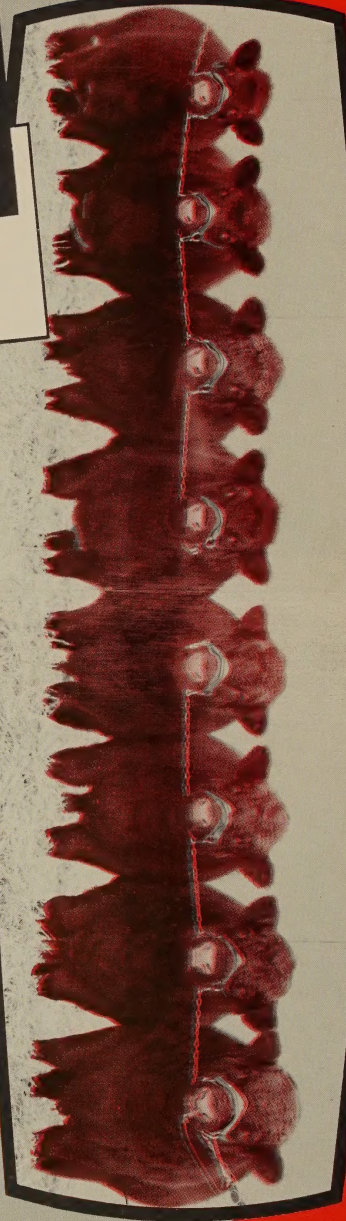

ALAUNA GLOSTER

Lot 14 in catalog. A nice large, smooth cow that is typical of the Alauna females.

COLLYNIE MASTERPIECE 5TH

A descendent of Alauna Lord Collynie and Alauna Collynie. He is the sire of Walter Fennern's herd bull which is in turn the sire of Lot 50 and also the service sire of the other three heifers in Fennern's consignment.

These brothers and sisters of Tulleevin Fascinator - all by L F Fascination - were the talk of the 1956 International Livestock Show. They won from left to right:

5th junior heifer calf, 1st junior heifer calf, 1st junior bull calf, 2nd senior heifer calf, 1st senior bull calf who was Junior and Reserve Grand Champion of the show, 6th

senior bull calf, 7th junior yearling bull and 1st junior yearling bull.

In groups the get of L F Fascination won: 1st on three bulls, 1st on two bulls, 4th on two females, 2nd and 4th on senior get of sire, 2nd on junior get of sire and 1st on pair of calves.
